

MAFFRA TRENCHING & BORING PTY LTD

ENVIRONMENTAL POLICY

MAFFRA TRENCHING & BORING PTY LTD has a sound record of environmental performance. We are committed to due diligence and enhancement of environmental performance in the management of our business.

Guided by MTB corporate policies:

- We are dedicated to minimising the impact of our operations on the environment, protecting human health and conserving resources. We will identify, review and manage the significant environmental aspects of our business and will integrate these activities with our health and safety and quality assurance programs to provide guidance to all MTB personnel in the conduct of their daily business.
- We will encourage environmental awareness among our staff and will design products, processes and service activities to prevent pollution and to eliminate other adverse environmental impacts. We will apply the principles of cleaner production to all aspects of our operations and will continue our efforts to reduce consumption of raw materials and minimise production of wastes.
- MTB is committed to continual improvement of the environmental performance of its plant items and processes. This concept is the keystone of our environmental policy and provides the framework to annually set environmental objectives and targets, which are regularly reviewed against industry benchmarks and standards.
- MTB will achieve compliance with the standards required by applicable environmental legislation and regulations. We will continue to be responsive to the ongoing needs of our customers and staff in developing technically and financially responsible solutions to issues of environmental concern arising from our activities.
- The substance and intent of our Environmental Policy will be actively communicated to all personnel by the provision of appropriate training and is available to the public and other interested parties.
